abdur1222.ar@gmail.com

West Rajar Bazar, Dhaka

Career Objective

I specialize in crafting dynamic and responsive web applications. Proficient front-end technology. My expertise includes React.js, Next.js, Node.js, Express and database management with MongoDB. With a keen eye for detail and a commitment to clean, efficient code, I thrive on transforming innovative ideas into seamless, user-centric digital experiences. Constantly evolving in the ever-changing tech landscape, I bring a passion for problem-solving and a collaborative mindset to every project.
